“ *Condolences to his family and friends. Dimitros had a huge heart and was kind and thoughtful to everyone. I worked with him for years at the bank and he lend his knowledge to everyone. He had patience to work hours on an issue even if it went past his shift. He was a hard worker, who never refused anything asked of him. His 'baby girl' phrase was never taken out of context, he meant it only as a deep friend would say. I know that he is an angel in heaven now.*
