“ James was a great friend of mine. He was one of those people whom everyone liked. James was one of the most cheerful people I've ever met. He had a natural skill at being a great listener, too. We had fun playing guitar together. James helped me through some very hard times in life and I will always be grateful for that. Miss you, bro.

SR

“ To James’s family:

I worked with James in the Qual Lab dept.at Boston Scientific for many years. The whole lab, and many others here at BSC are saddened by this news and are thinking of him. From all of us,please accept our condolences. He was not just a colleague for me but, also a very dear friend.He would always be willing to help me out whenever I needed it. He loved playing the guitar and taught me a thing or two about his favorite passed time, pool. He did have a million-dollar smile, that is for sure. We are going to miss him at our gatherings.

“ So sad. Will miss him. His smile would light up the room, so thoughtful, generous, fun and great sense of humor. He was one of our close knit family of BSC Qual Lab friends. Thinking of all his family and friends, he was so supportive to many.
