“ I am very glad I had the opportunity to have met and cared for John....I called him by his given name.....as his home care nurse. He was a remarkable guy and I have always held him close in my heart. He went through a lot and always came through with a positive note. Nothing held him down!!!! Thank you for all the kind words and emotional support over the years. I will miss, my friend. Thanks to the entire family for allowing me to be a part of his life and yours. I appreciated you all....Susan Scott RN.
